 www.alinsofianu.dev

Front End web developer based in Romania with a background in marketing and mathematics. Self-taught and passionate about technology, I create seamless, intuitive, and responsive digital experiences with a solutions-oriented approach.

Skills

- ES6+
- React/Next
- SPAs
- Material-UI
- TailwindCSS, FlowBite
- Gatsby / GraphQL
- ContentfulCMS
- Redux

Projects & Experience

2018-02 - Current

Freelance Developer

Freelance, Bucharest

- Built responsive and visually appealing UIs with seamless user experiences.
- Worked closely with clients to gather requirements and translate them into technical specifications for implementation.
- Integrate REST APIs for efficient data handling.
- Develop high-performance websites, achieving 90%+ Lighthouse scores.
- Proficient in Git, GitHub, Bitbucket and GitLab for version control and collaboration.
- Mentored two newcomers in React, providing a solid foundation.
- Continuously updated skills through training courses, and self-study—staying current on industry trends and emerging technologies.
- Front End Web development including JavaScript (ES6+), ReactJS, NextJS, Redux, GraphQL, Gatsby, Tailwind and MUI.

2016-08 - 2018-01

Front End Developer

Ferzy, Pitesti

- Gained sufficient React expertise to contribute to a monetized project, leading to an invitation from the Ferzy.com team (an SEO tool for keyword difficulty analysis) to join as a front-end developer.
- Worked with modern web technologies, including npm, Webpack, Babel, Redux, and MUI, while ensuring compliance with Google Material Design guidelines.

2016-02 - 2016-06

Web Developer

Self Employed Web, Pitesti

- Dedicated study time to mastering vanilla JavaScript (ES6+) , leading to a transition into a full-time front-end role.
- Explored various JavaScript frameworks and decided on React as the most established and strategic choice.
- Coded a few websites using React and other front-end technologies for friends and family with web-related needs.

2015-01 - 2016-02

Junior Developer

EveryMatrix, Bucharest

- Successfully completed the EM Frontend Academy, acquiring expertise in HTML5, CSS3, JavaScript, Git/GitHub, and GIMP, under the guidance of senior developers.
- Completed 10+ online courses/tutorials to develop a comprehensive understanding of web development.
- Collaborated with the Customer Support team as a junior developer, providing 24/7 technical assistance to ensure reliable product performance.

Education

Marketing

Academia De Studii Economice - Bucharest

Following the admission exam I received a merit scholarship.
